Digital Growth Africa (DiGAME) is investment company deploying capital to support entrepreneurs of African, technology-enabled businesses that could become regional and global category leaders. DiGAME's team helps commercially proven (revenue positive), technology-enabled businesses by investing growth stage capital to accelerate expansion, increase market share, and create value while also delivering sustainable impact in the process.

We work in close alignment with top-tier management teams, bringing value-add and market access through experience in technology, C-level operations and investment management and an unrivalled global network. We also develop close partnerships with our portfolio companies to support them in achieving their growth and expansion plans and are often chosen by entrepreneurs for our collaborative approach and extensive network of business influencers in their target geographies and industries.

By bridging the funding gap for growth capital and employing a rigorous and data-driven investment process, we capitalize on the most compelling risk-adjusted opportunities in the African entrepreneurial, technology-enabled investment landscape.

A successful candidate for an *Africa-based (Lagos, Nigeria preferred, but other locations considered), Pre-MBA Analyst* will have the following characteristics:

- **Professional background:** A minimum of 2 years of professional experience in investment banking, management consulting, principal investing or transaction services
- **Financial skills:** Strong financial modelling skills, proven in a blue-chip, professional services environment
- **Analytical skills:** Strong analytical skills, ability to develop stringent investment hypotheses and market analysis
- **Independence:** Ability to work under limited oversight in a remote capacity in a non-hierarchical environment
- **Sector Interest:** Experience in or passion for technology driven industries and early-stage / growth companies. Commercial and entrepreneurial spirit.
- **Technical skills:** Advanced MS office skills (esp. Excel and PowerPoint); familiarity with leading databases and research tools beneficial
- **Education:** Excellent academic record, ideally with focus on engineering, business or finance
- **Languages:** Proficiency in English; other African language(s) desirable
- **Maturity:** Ability to deal with senior counterparts at target and portfolio companies, advisors, co-investors, banks etc.

Responsibilities will also include, but not be limited to:

- Tracking origination activity and identifying possible investment opportunities by conducting research
- Supporting the team with all aspects of deal execution incl. due diligence, internal investment presentations and legal documentation
- Monitoring existing portfolio companies, arranging value creation activities for such companies and promoting exit
- Participating in and actively contributing to internal and external meetings
- Maintaining and developing an external professional network and generating deal flow
- Supporting the team with all activity related to firm profile building/marketing
- Supporting the team in LP development and fundraising activities
